EDUCATION

Carleton University   Ottawa, ON
Bachelor of Computer Science   *Graduated April 2025*

PROJECTS

3D Horror Game | *C++*
- Developed a 3D horror game from scratch using Microsoft Visual Studio
- Implemented character animations using kinematics, enhancing the natural movement of the player
- Integrated realistic physics and dynamic lighting to enhance player immersion
- Conducted playtesting sessions with 20+ users, resulting in a 40% improvement in user experience

Gym Membership Command-Line Interface App | *Java, SQL*
- Developed a gym membership management application using Java for the CLI and PostgreSQL for the database
- Implemented CRUD operations with SQL queries to manage data within the database
- Conducted unit testing and debugging to ensure high-quality code
- Developed comprehensive logging and error-handling mechanisms to troubleshoot issues effectively

Web-Based Calculator | *HTML, CSS, Javascript*
- Developed a calculator web application using JS for operations and HTML/CSS for the UI
- Integrated error handling mechanisms to manage invalid inputs, improving the overall robustness of the app
- Designed a responsive UI using Flexbox, ensuring seamless functionality independent of size
- Optimized JS code by reducing redundant operations, achieving a 25% reduction in code size

EXPERIENCE

Production Associate   June 2021 – August 2024
KTH Shelburne Mfg.   *Shelburne, ON*
- Collaborated with engineering, quality assurance, and production teams to address product defects, contributing to a 10% reduction in defects and improved workflows
- Assisted in quality control by conducting inspections and reporting any found issues, leading to corrective actions and consistent product quality
- Adapted quickly to new machinery and software, assisting team members and improving overall efficiency

Math Tutor   June 2018 – June 2021
4Word Thinking Tutoring   *Shelburne, ON*
- Developed personalized study plans, analyzing student challenges and providing tailored solutions that improved understanding
- Adapted to Zoom, Google Classroom, and digital whiteboards for remote tutoring, ensuring smooth, effective sessions
- Simplified complex math concepts, enhancing student comprehension and academic performance

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS
Developer Tools: Git, VS Code, Visual Studio, IntelliJ, AI Tools
